Description:

Brand/trade mark:

Type:

Size range:

PPE Category:

3 Tests to do on PPE:

EN 420 : 2003 and EN 420 : 2003 + A1 : 2010

- Water vapour transmission and absorption
- Size and dexterity
- pH value measurement
- Cr(VI) value measurement (leather only)*
- Electrostatic properties

EN 511 : 2006

- Resistance to convective cold*
- Resistance to contact cold*
- Penetration by water*

EN 388 : 2016

- Abrasion resistance
- Blade cut resistance
- Tear resistance
- Puncture resistance
- Linear cut resistance (EN ISO 13997)
- Impact resistance*

EN 407 : 2004

- Burn behaviour*
- Contact heat*
- Convective heat*
- Radiant heat*
- Small splashes of molten metal*
- Large quantities of molten metal*

EN 12477 : 2001 / A1 : 2005

- Type A
- Type B

*subcontracted test

Other:

4 Specimens delivered:

Number of specimens sent to carry out test programme: (specify number of specimens by size)

5 Technical documentation:

Technical documentation in accordance to Annex III of Regulation EU 2016/425 is provided by manufacturer to notified body together with this application.

6 Statement:

At least one test from EN 388 standard has to be chosen.

6 Statement:

We proclaim that no request of a similar nature concerning the same model has been presented to another notified body for the deliverance of CE type certification.

TECHNICAL DOCUMENTATION (Annex III of EU Regulation)

The technical documentation shall include at least the following elements:

- a) a complete description of the PPE and of its intended use;
- b) an assessment of the risks against which the PPE is intended to protect;
- c) a list of the essential health and safety requirements that are applicable to the PPE;
- d) design and manufacturing drawings and schemes of the PPE and of its components, sub-assemblies and circuits;
- e) the descriptions and explanations necessary for the understanding of the drawings and schemes referred to in point (d) and of the operation of the PPE;
- f) the references of the harmonised standards referred to in Article 14 that have been applied for the design and manufacture of the PPE. In the event of partial application of harmonised standards, the documentation shall specify the parts which have been applied;
- g) where harmonised standards have not been applied or have been only partially applied, descriptions of the other technical specifications that have been applied in order to satisfy the applicable essential health and safety requirements;
- h) the results of the design calculations, inspections and examinations carried out to verify the conformity of the PPE with the applicable essential health and safety requirements;
- i) reports on the tests carried out to verify the conformity of the PPE with the applicable essential health and safety requirements and, where appropriate, to establish the relevant protection class;
- j) a description of the means used by the manufacturer during the production of the PPE to ensure the conformity of the PPE produced with the design specifications;
- k) a copy of the manufacturer's instructions and information set out in point 1.4 of Annex II;
- l) for PPE produced as a single unit to fit an individual user, all the necessary instructions for manufacturing such PPE on the basis of the approved basic model;
- m) for PPE produced in series where each item is adapted to fit an individual user, a description of the measures to be taken by the manufacturer during the fitting and production process to ensure that each item of PPE complies with the approved type and with the applicable essential health and safety requirements.

Declarations:

By signing at the bottom of this Application the applicant declares:

- to be aware and accept all the conditions imposed by Regulation (EU) 425/2016 and by Certification agreement OB-CO-02 rev 0
- to have requested the EU Type Examination of mentioned PPE only at ZVD d.o.o.
- to have full read and understood the basic safety and health requirements (Annex II of EU Regulation) and that the information given in this application are true and correct. The range of risks against which the PPE is intended to protect are included in this application.
- That raw materials, components, and samples delivered to ZVD d.o.o. for testing and examinations are consistent with those used in the production.
